Highlights and captivating stories from July

Dear BCTA Family,

BMS World Update

Greetings in the name of our Lord and Savior, Jesus Christ. We extend our heartfelt gratitude to all our leaders, partners, and readers who journey with us in our mission. Your support and dedication are deeply appreciated. As we reflect on our collective efforts, we are reminded of the profound wisdom found in scripture regarding our purpose and duty. BCTA strives to uphold the principle of "Fearing God" in all that we do. When we chase after worldly pursuits without God, we are unprepared for life's challenges and blessings, like being without shelter in a storm. The Teacher laments, "Absolutely futile! All these things are futile!" (Ecclesiastes 12:8). This despair reflects our own when we face life without God's guidance.

King Solomon, who experienced earthly success, concluded, "Fear God and keep his commandments, because this is the whole duty of man" (Ecclesiastes 12:12). His wisdom offers us preparation and purpose. Fearing God means reverencing His power and name, not being scared of Him. He is our all-powerful, loving Creator and Savior.

In everything we do—our work, relationships, and daily activities—we must remember to fear God and keep His commandments. This is our true purpose. By fearing God, we align ourselves with His will, finding meaning and direction in every aspect of our lives. Let us commit to fearing God, for He is the foundation of our existence and the essence of our mission.

Ecclesiastes 5:1-7; 12:1-14

Secretary, Treasurer, BCTA *Mr. Sumit Nath*

The Baptist World Alliance (BWA) Annual Gathering held in Lagos, Nigeria was historic and memorable event for the whole global Baptist community. It goes without mention that the conference was another expression of our faith's diversity within unity as 400 leaders from 64 countries attended.

Dr. Elijah M. Brown has been reelected by BWA General Council to serve as the ninth General Secretary and CEO for another five-year term. The fact that Dr. Brown remains the youngest leader in history of BWA attests to his exceptional leadership and vision.

It is with extreme pleasure that we, The Baptist Church Trust Association (BCTA) in India, extend our most sincere congratulations to Dr. Brown on this outstanding accomplishment. We eagerly anticipate his strategic and visionary leadership which will no doubt lead and inspire every Baptist family across the globe.

Forging Partnership to Combat Public Health Issues

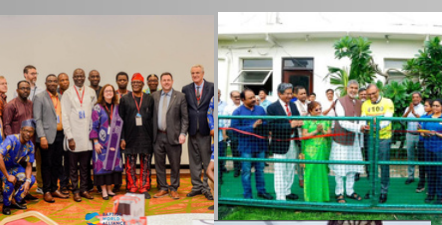

Turning Struggles into Success

Meenakshi (name changed), a widow and single parent, faced immense mental and financial stress before joining our low-cost vocational training program. Through BCTA, Vocational training through GIVE, she learned to make floor cleaner, specifically Phenyl. Today, she supplies high-quality Phenyl to her local neighborhood, and the demand for her product is steadily growing. With a stable source of income, Meenakshi's journey exemplifies BCTA's mission to empower individuals and bring sustenance to the community. Her success story is a testament to the transformative impact of our vocational training initiatives.

Certificate Distribution to Next Generation Cyber Guardians

We're thrilled to share a milestone in our ongoing mission to enhance Cyber Awareness and Security BCTA in collaboration with with Global Institute of Vocational Excellence, and NIIT Foundation, and Cisco International, has proudly distributed certificates to our 12 Standard students at B M Gange Sr. Girls School, Civil Lines.

These bright minds are now equipped with crucial cybersecurity skills, ready to tackle the digital challenges of tomorrow. A big shoutout to our partners and participants for making this possible and for championing the cause of cyber safety in our community! Together, we're creating a safer digital world, one student at a time.

BCTA Forging Partnership to Combat AMR

A major student engagement program on Antimicrobial Resistance (AMR) has been launched by BCTA's Public Health Division, led by Dr. Sudhi Nath, partnering with ReAct Asia Pacific. A recent workshop in Maharashtra for medical college students, featuring Dr. Sudhi as the keynote speaker and distinguished panelists, received an overwhelmingly positive response from both students and faculty. This initiative demonstrates BCTA's dedication to sensitizing future health practitioners about AMR and its proactive commitment towards addressing important public health issues such as antimicrobial resistance through collaborative initiatives.

Our FIFA Approved Football Turf

BCTA is delighted to be partnering with the Sudeva Football Club on the occasion of launching a new FIFA certified football turf; it reveals that we are serious about developing sports in India. Our sincere thanks go to Mr. Kailash Satyarthi, Nobel Peace laureate and his wife for their presence and motivating our upcoming sportsmen to "Dare to Dream Big." Special thanks to HINDALCO and Mr. Satish Pai (Managing Director, Hindalco) who have been of great help. We were blessed our special guests at the ceremony including Mr. Ashok Solomon (CMD of Chintels India Ltd., Mr. Himanshu Gupta(IAS, Secretary of CBSE) and Mr.Ramesh Gupta (Senior Advocate) among others for on this important day when the artificial turf was officially launched in BCTA. As they step onto this piece of land, our students' dreams turn into reality because they can feel how close they are towards becoming famous footballers. Thank you as always for your continued support and let's look forward to a future full of achievements and opportunities.

Neuro Lab Helping Students Perform Better

A Neuro Lab has been established by BCTA and Physio Karma Solutions to help students with their memory retention, mental flexibility, focus, and problem-solving abilities. Physio Karma is an expert in using scientific methods to improve cognitive function. Through the use of these strategies, our kids' performance has significantly increased. After only a few months of instruction, academically challenging students have made impressive progress. In order to bring out the best in each of our students, we are still dedicated to looking for cutting-edge partnerships and technology. We are thrilled about the ongoing good impact on our children' academic progress, especially given the encouraging first findings.
